Saturn in the 9th House

From 22 Feb 25

"The planet Saturn rules all that is durable, long-lasting, hardened and able to be structured like lead or concrete; industries like building or agriculture and businesses that have long range goals, are traditional and well-established." So says renowned astrologer Brian Clark. Therefore Saturn is likely to force you to slow down and restructure any

area that it influences in your Birth Chart. You are required to seriously assess the value of the life areas influenced by this serious planet. The serious planet Saturn is moving into the 9th House of your Birth Chart heralding a more serious approach to your own beliefs, your outlook on world events and matters of the higher mind. You are likely to seriously seek meaning and purpose in your life. You may feel restricted in exploring the meaning of life, but nevertheless you need to form a set of beliefs that can serve you well during this period. Later in life you may eventually mount a serious investigation into the philosophical or religious realms.

During this transit you may have difficulty striking a balance between your own personal goals and your responsibilities. Tension can arise as you feel the need to break out of old restrictions. Although your tolerance level may be low, you would do well to cultivate the assistance of others, rather than meeting them head on or simply giving up on them. The benefits of this transit is that you are forced to take action in restructuring areas of your life which may have become stagnant and tired.

Uranus in the 12th House

From 22 Feb 25

Uranus is a planet that is full of surprises. It takes approximately 84 years to do a full circle around the Zodiac. This means that it moves slowly through each Zodiac Sign and its effects on your Birth Chart takes time to unfold. It is important to note that this erratic planet can affect your life in a variety of ways depending on how you cope with change. If you try to resist change then you may find this planet's effects somewhat of a challenge. If you welcome liberation then you are in for a joyride. The planet Uranus helps you break free from past chains and restrictions and form new and more joyful ways of interacting in your life. Your life may be disrupted but you are then free from thinking inside the box, and new horizons open up. The area of your Birth Chart influenced by this liberating force is likely to be awakened and stimulated. This is a profound period in your life, although at times you may feel the need to retreat. On the positive side you experience intuitive flashes, initiate or join an unusual institution and expand your philanthropic interests. It is also possible that you probe the human psyche in an unusual fashion.

Uranus Sextile Mars

Neptune in the 6th House

From 22 Feb 25

The planet Neptune takes approximately 164 years to circle the Zodiac. This slow-moving planet's transits unfold slowly. It is therefore more significant to look at any exact transits that are occurring in your Birth Chart. Nevertheless it can be helpful to try to understand the effect of Neptune as it enters into and transits through a House in your Birth Chart. Neptune is the planet that urges us to search for meaning in our lives, to look beyond the structures and focus on purpose. For instance are you pursuing a career because of ambition and material rewards or is it your true purpose and fully satisfying? Therefore it is not uncommon for the initial effects of Neptune to be confusion and disillusion, perhaps even a sense of loss. Gradually awareness emerges and you are able to see what is underlying the illusions and what you can gain by changing your course and embracing values that truly enhance your journey in life. Neptune helps you see the truth of any situation and therefore live your own truth. As Neptune travels through your 6th House you need to take care of your health, taking particular care with drugs of any description. The trouble is that your body is overly-sensitive during this time. You may even develop or discover allergies. You may also feel somewhat lethargic, overwhelmed by the demands of a busy life. A good balance of rest, exercise and a healthy diet goes a long way towards helping you cope with the stress of a busy schedule. You may also benefit from seeking advice from alternative healers, or perhaps even exploring options for working as a healer or in a spiritual field.

Pluto in the 5th House

From 22 Feb 25

Pluto is the slowest moving planet in the Solar System, taking approximately 248 years to complete a circle around the Zodiac. This slow-moving planet's transits are long-lasting and initially pack a punch if you are not living

according to your true natures. The more you are your authentic self, the more that you can embrace the positive side of Pluto. The author of the website Caf? Astrology puts it best when stating: "Pluto compels us to explore more deeply. Superficiality is not acceptable for Pluto. Pluto transits insist that we get in touch with our core purpose and our deep sense of power. New levels of intimacy, not only with others but also with ourselves, are discovered and uncovered." Currently you have a powerful need to express yourself creatively, and your energy would be best directed through a demanding and absorbing creative project. Children, either your own or other people's, may present a challenge. It is possible that you are seriously considering whether or not to have your own children.
